Re: Final Approval
Rowley Magnesium Plant
ACT/045/008
Tooele, County Utah

Dear Mr. McCormick:

On May 25, 1979 the Board of Oil, Gas, and Mining issued tentative approval to the Mining and Reclamation Plan submitted by NL Industries for the Rowley Magnesium Plant. Subsequently this tentative approval was published as required by the Utah Mined Land Reclamation Act to solicit public comment for the required 30 day period.

Because no adverse public comment was received during this 30 day period, and because all other requirements for this operation have been fulfilled, including receipt of the fully executed Mined Land Reclamation Bond in the amount of \$15,278.08, the Division hereby issued Final Approval to NL Industries for the Rowley Magnesium Plant.

Please be reminded of Rule M-8 of the Utah Mined Land Reclamation Act which requires that within 30 days after commencement of operations, the operator shall notify the Division of such commencement. Rule M-8 also requires that an Annual Operations and Progress Report be filed at the end of each calendar year.

Should you have any further questions, please contact this Division.

Sincerely,

Ronald W. Daniels
